Education

TU Delft, 2024 - 2026 — MSc Architecture Cum Laude

TU Delft, 2018 - 2024 — BSc Architecture

Hispania, Valencia — Spanish A2

About me

Hi! I am an architecture student interested in craftsmanship, heritage, social design and material driven design. In my freetime I like to develop my own small building and crafting projects, besides studying to become a captain on seafaring sailboats! I enjoy being out in nature and love capturing it through photo or video.

As a designer I strongly value contextual design, working together with local communities and developing projects within a heritage framework. My projects operate on different scales, ranging from more personal to public.

Relevant experience

2026 — Tutor of European Architecture Assembly
EASA Seanchaí, Ireland [2 weeks]
